SCHS Series
Slim ProAV 4K HDMI Cables

Overview

These SCHS Series ProAV 4K HDMI Cables are designed for modern AV installations, this slim HDMI cable features an ultra-compact 4.8 mm outer diameter, making it ideal for environments where space is limited. Its lightweight and flexible construction allows for easier cable routing through tight conduits, furniture, display mounts, and equipment racks, helping to achieve a cleaner and more professional installation.

Designed for all devices with HDMI 2.0 standard and backwards compatible with HDMI 1.4, 1.3 & 1.2. Tinplate metal shielding and gold-plated, corrosion-resistant connectors can protect against external signal interference, guarantee fast transfer of high-definition digital audio and video signal.

Built with sleek aluminium head shell and high-quality PVC jacket, this HDMI cord can withstand bend test of 10,000+ times without reducing cable flexibility and ensure the best performance for all kinds of applications.
